

Dear Member,

Building Trades Welfare Fund and its Population Health Management program is pleased to announce a new Population Health Management partner, Overture Health Care. The program continues to be available as part of your current benefits package. Participation is strictly voluntary and confidential, and the program is provided at no cost to you, your eligible spouse and your eligible dependent over 18 years old.

Enrollment for this benefit is voluntary, however we strongly encourage you to take full advantage of this opportunity. The health management program is not intended to substitute the medical advice of your primary healthcare provider, but it is designed to provide you tools and resources to improve your overall health.

You will soon be receiving additional important information electronically from Overture Health Care about this transition. The appointment-making process will be enhanced and will provide you with the tools to schedule appointments directly from your smart phone or computer. In order to receive information regarding the transition as well as other benefits of the program, please ensure that you update human resources with your current contact information, including email address.

If you have any questions regarding this health management program, please contact Overture Health Care at [member.services@overturehealthcare.net](mailto:member.services@overturehealthcare.net).
