

Building Trades Welfare Benefit Fund In Partnership with Overture Health Care

Dear Member,

Thank you for being part of the Building Trades Welfare Benefit Fund. We would like to extend the opportunity to enroll in the Population Health Management Program which is now administered by Overture Health Care. The Overture Health Care program is a benefit for covered employees, spouses, and dependents 18 and over. The program is managed by Overture Health Care and is available for those who are diagnosed with chronic conditions such as asthma, pre-diabetes, diabetes, high blood pressure and high cholesterol. Participants will be assigned to a care coach who will help each enrolled member achieve a healthier lifestyle by better understanding their condition, helping each member lower the risk of health-related complications, assuring that they know the importance of staying adherent to their medication therapy, improving their quality of life and customizing goals for each participant.

Overture Health Care's goal is to keep members compliant with the treatment program prescribed by their physician so the members can improve their health, feel good and enjoy a more active and happy life. This program is a no-cost benefit for covered employees, spouses, and dependents 18 and over. **Participating individuals who are active in the program will receive a \$500 gift card and waived co-payments on prescription medications** subject to the terms and conditions of the Population Health Management Program!

If you have any questions regarding the Overture Health Care program or you would like to enroll, please contact Overture Health Care at **member.services@overturehealthcare.net**.
